To/Location: B.E. Johnson - Louisville

Enclosed is the original and one copy of the Notice of Completion of Ground Water Development and the Well Log for our test well number 8. This well is for the purpose of monitoring the ground water below a pile of spent cathode linings.

Please review and send the original back to us for filing. The copy is for your files. We will file this with the State and when the certificate is received from the State, we will forward you copies for your files and the Denver office files.
